CIRCULAR BED CULTIVATOR - "CUVETTE"

CODE:CBC0202

CAPACITY : 100 HA

- A circular Cultivator to easily create beds around trees.
- Dealing easily with different types of soil - wadi soil with stones, sandy soil and more.
- Easy and simple hydraulic operation.
- Option to adjust the desirable bed diameter - from 70 cm to 390 cm
- Bed depth - 30 cm with a 12-inch cultivator leg
- Cultivator rotation speed - 35 rpm max.
- Entrance opening to the tree - 90 cm
- Saves you time and labor costs.
- Creating new beds very quickly and easily. Easy and simple maintenance of existing beds.

Saves you time and labor costs.
Creating beds very quickly and easily

MALE FLOWER OPENING TABLE

CODE:OT-1506

CAPACITY : 150 HA

- Opening the flowers on a mesh tray - to open the flowers before drying and producing the pollen.
- Maximum pollen production
- Accurate cyclone - **100%** pollen collection without depreciation.
- Pollen collected in a glass jar at the bottom of the cyclone.
- Simple and convenient operation
- Proven savings of 20% pollination powder using the opening table

**20%
more pollination
powder**

MALE FLOWER POLLEN EXTRACTION MACHINE

CODE:EM-1209-L

CAPACITY : 150 HA

- Male Flower Pollen Extraction Machine consist two parts:
Large extraction drum & precise Cyclone
- Large drum: contains **35-45** flowers!
- Accurate cyclone system - **100% pollen collection** without depreciation. Pollen collected in a glass jar at the bottom of the cyclone.
- Significant savings in **pollen, manpower, Money & time.**
- **2.5-5 KG** pollen per hour
- **Simple and convenient operation**
- **A Worldwide Success**

100%
pollen
collection

2.5-5 KG
pollen
per hour

ROTATION POLLEN MIXER - SMALL

CODE:MX-1508-S

CAPACITY : 60 HA

- Mix the Pollen and other ingredients (talc, etc.) into the mixer. After about 10 minutes mixing, homogenous mixtures are obtained so that all components of the powder mixture are divided evenly.
- Precise mixing results - for high quality fruit results
- 10 liter container (3.5-4 kg of powder)
- 12V Motor
- Simple and convenient operation.

**Uniformity
mixing
results**

PALM TREE POLLINATION & SPRAYING MACHINE

CODE:PM-1006

CAPACITY : 60 HA

- Pollination of **400-450** trees in **1 hour** with **1 worker!**
- **Accuracy** and **uniformity** in Pollination and fruit yield - Excellent fruit results
- **Significant savings** in manpower, resources, tools and money
- Easy to use - operates with control panel
- Measured and exact amount of Pollen for each tree - Great savings on Pollen
- Pollination 0-22 M Spraying 0-18 M
- Cannon can be sided **180 degrees**
- **Also a sprayer** - Built-in connection to spraying liquids
- **Option - "Black Scorch" spraying device**
- Worldwide Success

The Palm Tree Pollination & Spraying machine will increase amount & quality of the dates while saving money and pollen!

**400-450
Trees in
1 Hour
1 Worker!**

**Israeli
Technology
Global
Success!**
